Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. Alice Josephine Smith (illustrator). 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book comes to perform much the same office with younger children that Miss Morleys "Flowers and their Friends," and Kate Browns "The Plant Baby and Its Friends," do for pupils who are more advanced. The author of "A Plant Baby" had therefore special difficulties, but they are well met. The language of the book is commendably simple, though the simplicity is not maintained to the avoidance of a few technical terms which, as experience verifies, are readily used and understood by children of six or seven years of age. In less than twenty of the short chapters we have the history of a plants growth and development from germ to flowering maturityfrom seed to seed in fact simply and skillfully told. Other science stories in prose and verse of useful, beautiful and curious plants, fill the remainder of the volume. For the teachers help there are brief special notes, besides the general suggestiveness of the text and the careful illustrations. From the preface we quote one valuable sentence which ought to be repeated in all the reading books which treat of Natural History. "It is earnestly urged that so far as possible the work of observation be carried out with the specimens in handbefore the reading is attempted, so that the book may become the confirmation of the childs original research." Kindergarten Review, Volume 8.
