Toward a Nation-Building Operating Concept

By John DeJarnette

Bibliioscholar Nov 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x3 mm. This item is printed on demand - Print on Demand Neuware - This monograph explores political science theory and contemporary practice to develop a structural framework for nation-building. The generalized framework is predicated on the observation that interagency operations can achieve a degree of self-synchronization by implementing a high-level operating concept. Self-synchronization achieves unity of action and obviates the need for cumbersome interagency coordinating bodies in all but the highest risk activities. In the context of nation-building, an operating concept is defined as 'a mid-to long-term directive that outlines objectives, principles, and guidelines for achieving synergy among the operations of U.S. agencies that do not share a common corporate leadership structure or chain of command.' There are seven thematic attributes of a nation-building operating concept: persistent effort over time, the requirement for normative decisions during intervention, bottom-up development of representative and accountable institutions, transparency, incremental adaptation, and limited scope of indigenous government powers. These are derived from political science and economic theory, as well as observations of contemporary nation-building operations. These nation-building themes can help to resolve the disequilibrium in institutional power that characterizes most nation-building operations. The principles of...
