OCLC Number: (OCoLC)37628166 Subject: Sex role in the work environment -- United States. Excerpt: . . . Part II SURVEY RESULTS SENIOR REVIEW PANEL (SRP) SURVEY Instrument Three different survey versions (Form A, Form B, and Form S) which share the same core set of items were used. The main survey (Form A) was a company-level assessment and was used for the primary analysis. The core set of survey items that the surveys shared were: demographics, unit characteristics, climate culture items, and a modified version of the Sexual Experiences Questionnaire (Fitzgerald et al; 1988). Minor modifications were made to Form A during the study. During the initial administration of the survey, it became apparent that some of the survey questions were considered inflammatory and offensive, and felt by some soldiers to be an invasion of privacy to the extent that some refused to complete the survey. Since the items did not directly contribute to the overall design of the research, it was decided that to continue using these questions would not have been in the best interest of the assessment effort. The use of multiple methods of data collection provided ample opportunity for relevant data to surface elsewhere in focus groups and interviews. A revised survey was written which omitted six questions related to adultery, pornography, and sexual behaviors. One item was revised since it was double barreled and asked two questions in one. When the data from the revised Form A were merged with the two surveys, only the 157 items found on all forms were included in the final data set for analysis. Form B...
