Brand New Book ***** Print on Demand *****.Excerpt from Prone and Postural Respiration in Drowning and Other Forms of Apn a or Suspended Respiration I have made it a sacred duty to assist in editing this my Father s latest work, during the protracted and severe illness, which terminated on the eleventh of this mouth in his death - in a loss irreparable to the whole scientific world. This final leap of an expiring flame is far from being the least brilliant of my Father s gifts to his profession and to humanity. My task has been easy. I have had little to do, except to gather together and arrange the papers which have appeared in a pamphlet and in The Lancet, and some M.SS. I should willingly have adopted the title given to the life-restoring process of pronation and rotation of the patient dying of apn a, by the Editor of that journal, and so cordially adopted by the profession: Any thing more simple, philosophical, or beautiful, could not have been devised. It is proposed to call the plan the ready method of treating the drowned. Infinitely preferable, in our opinion, would be the title of the marshall hall method. This designation is due to the distinguished discoverer; and the method would thus be benevolently associated with his name to the end of time.
