By Eugene Henry Barker

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Applied Mathematics for Junior High Schools and High Schools This book has been written to meet the demand for a practical course in applied mathematics which shall coordinate the schoolroom lesson and the actual problem of the industrial and commercial world. It presents the body of mathematical information which is likely to be of daily service, no matter what one s occupation may be. Applied Mathematics is the outgrowth of twelve years of experimentation in a high school of over two thousand students, and the exercises in the book have stood the test of classroom trial. The examples and problems have been selected from many fields - industrial, commercial, mechanical, agricultural - and, as far as possible, are such as occur in the household, on the farm, in the factory, and at the office. The book gives in teachable form: (1) An adequate treatment of the fundamental operations of arithmetic, with proper attention to modern methods of performing these operations. (2) A consideration of ordinary business transactions. (3) A sufficient acquaintance with the symbols of algebra...
